

### Junior Perl Developer

**What we have to offer is unique; you will be joining a truly Agile team embedded within the business; this is an opportunity to establish a close relationship with our product owners and users and make a real difference in a fast-paced pure-play retail environment.**

**Our leading edge infrastructure allows us to deliver value to our business every iteration, which means you will immediately be able to contribute and make a positive impact to our business.**

**Our success means we are looking for the best software developers to take our platform and product forward. In return you will be exposed to the latest technologies, frameworks & methodologies in application development.**

NET-A-PORTER.COM launched in June 2000 and has since successfully established itself as the world's premier luxury online fashion retailer. With its acclaimed editorial format, express worldwide shipping to 170 countries, luxurious packaging and easy returns, NET-A-PORTER offers an unparalleled shopping experience. NET-A-PORTER.COM is the flagship brand from the NET-A-PORTER group which comprises theOutnet.com, the most fashionable fashion outlet, and MRPORTER.COM, the global men's style destination.

**"Net-a-porter has revolutionized the way we buy designer clothes." Vogue UK**

---

#### The Role:

- Develop to a high standard, ensuring work is well-planned, estimated, tested, and documented
